

ODUNAYO BOLARINWA

Full-Stack Web Developer · Digital Product Builder · Founder, Odgrande Digital

Lagos, Nigeria | odgrandeng@gmail.com | 08027279797 (Call & WhatsApp) | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Results-driven Full-Stack Web Developer with 5+ years of experience designing, building, and scaling digital products for clients across Nigeria, the United Kingdom, Canada, and the United States. Founder of Odgrande Digital, an agency delivering end-to-end web solutions — from custom WordPress engineering and WooCommerce e-commerce platforms to bespoke **plugins** and AI-integrated applications. Known for translating complex briefs into clean, high-performance websites that balance strong visual design with technical rigour, always delivered on time and to specification.

CORE COMPETENCIES

Frontend	HTML5, CSS3, JavaScript, Responsive Design, UI/UX
CMS & Builders	WordPress, Elementor, Webflow, Framer, WooCommerce
Backend & Database	PHP, Node.js, PostgreSQL, REST APIs
Plugin Development	Custom WordPress Plugins, Freemius SDK, CodeCanyon
Integrations	Stripe, Moneris, FunnelKit, Email Automation, MailOptin
Design & Branding	Figma, Graphic Design, Visual Identity, Adobe Suite
Marketing & SEO	On-page SEO, Digital Strategy, Social Media, Analytics

PROFESSIONAL EXPERIENCE

Founder & Lead Developer

Odgrande Digital

2023 – Present · Lagos, Nigeria

- Founded and operate a web development agency serving clients across Nigeria, UK, Canada, and the USA
- Delivered 15+ live digital products spanning e-commerce, entertainment, NGOs, SaaS, and corporate sectors
- Oversee all client engagements end-to-end — from discovery and design through development, deployment, and support

Web Developer (Contract)

CULTUR FM

Dec 2024 – May 2026 · London, UK · Remote

- Built and maintained the official platform for a UK-based music and culture brand on WordPress/Elementor
- Developed a custom ticketing plugin with QR/PDF generation, Stripe integration, and progressive pricing logic
- Delivered social proof bars, partner carousels, popup systems, and mobile-optimised promotional pages
- Executed a structured improvement roadmap covering homepage, events, footer, forms, and campaign assets

Lead Web Designer & Developer

Snap and Stem Creative Studio

Aug 2025 – Present · Casselman, ON, Canada · Remote

- Engineered the studio's complete online presence from scratch — photography portfolio, bookings, and WooCommerce store
- Integrated FunnelKit checkout, Moneris payment gateway, Apple Pay, Google Pay, and custom delivery/tip logic
- Delivered a premium, mobile-first storefront aligned with the studio's high-end creative identity

Lead Developer

Waldroid Consult

Jul 2024 – Present · London, UK · Remote

- Leading web development for a UK-based business consultancy, overseeing client sites and digital infrastructure

Lead Website Designer

BLASTFEST

Mar 2023 – Present · Seattle, WA, USA · Remote

- Designed and maintain the official website for the first Afrobeats music festival in Seattle, USA
- Collaborate annually with DJ Blast and the event ownership team on redesigns, campaign pages, and promotional materials

Senior Website Designer

The 234 Project Foundation

May 2022 – Present · Lagos, Nigeria

- Design and maintain the NGO's full digital presence, supporting community outreach and programme visibility

Lead Web Designer

Daffodils Africa

Sep 2023 – Present · Lagos, Nigeria

- Built and manage a vibrant, mission-driven website for an Africa-focused organisation

Lead Digital Designer

OrangeBee Money Global

Mar 2020 – May 2025 · Clearwater, FL, USA · Remote

- Led digital design, branding, and web presence for a US-based fintech company over five years
- Managed website maintenance, visual identity systems, and digital marketing asset production

Freelance Web Developer

Upwork

May 2021 – Present · Remote · International

- Delivered diverse web development and design projects for clients across multiple industries and countries

Senior Content Editor

Reterdeen

Jan 2019 – Aug 2020 · Lagos, Nigeria

- Oversaw editorial content strategy from concept to publication across written and visual formats
- Mentored and managed a junior editorial team, driving consistency and quality across all output

NOTABLE PROJECTS

Discover234 — Nigerian History & Culture Platform

<https://discover234.com>

Custom-built platform (no CMS) featuring dynamic JSON-based articles across multiple content categories, an AI-powered 'On This Day' widget using Claude API and Wikimedia Commons, NaijaBOT AI chat assistant, daily quiz, push notifications, exit popups, and a consistent templated architecture across all pages.

MailOptin — Email Automation Platform Landing Page

<https://mailopt.discover234.com>

SaaS-style product landing page built with Elementor — clean, conversion-focused design featuring lead generation, pricing, integrations, and full features architecture.

PrepMaster — Restaurant Kitchen Management Plugin

Custom WordPress plugin built for CodeCanyon. Features Freemius SDK licensing, Node.js/PostgreSQL backend, full kitchen prep sheet management, and admin dashboard UI.

Addoz Integrated Resources Limited

<https://addozintegratedresourceslimited.com>

Full website build and copywriting for a Lagos-based HR outsourcing and recruitment consultancy — service pages, job board integration, and brand-aligned design.

Borrow A Camera — Camera Hire Marketplace

<https://borrowacamera.com>

E-commerce hire platform with real-time availability, custom booking logic, and a streamlined checkout experience for camera kit rentals.
